
find email address of orkut user

Contributed by Rishiraj Singh

Do you want to find email address of any person who is not there in your friend list. May be you have tried the old trick to send friend request then choosing edit to view their email id on friend's page, But its not working any more. So here is the new tricks to find email address of any orkut profile, But for this tricks to be you must have Google messenger "Gtalk" installed on your computer.

So here comes the trick

1. Go to any members profile whose email address you want to find out in and who is not your friend list. (Because you can always view your friends email id by going to friend's page and you cant ignore someone who is in your friends list)
2. After going to his/her profile, select ignore user option which is on left side below picture.
3. Now log into Google Talk and go to Settings >> Blocked user.
4. You will get all ignored peoples name and email id there! So enjoy, if you have any difficulty you can write comment or inform be by guestbook.
