# Disable CD Autorun

Contributed by Rishiraj Singh

If you are fed up with the auto run of the CD every time you insert it&hellip;then here is method to disable it very easily. Follow the steps given below.

- 1) Click Start >> Run >> Type gpedit.msc and press enter.
- 2) From the left pane select Computer Configuration >> Administrative Templates >> System.
- 3) Now find the entry &ldquo;Turn off Autoplay&rdquo; in right pane. Right click on &ldquo;Turn off autoplay&rdquo; and select Properties, choose enabled and now click ok. You can customize it as you want.
